Re: Technical Review Committees

Gentlemen:

In accordance with SARA Section 211, we are establishing technical review committees to review and comment on our efforts under the Installation Restoration program. We are currently conducting RI/FSs at three installations within Region IV: Marine Corps Air Station, Cherry Point, NC, Marine Corps Base, Camp Lejeune, NC and Naval Ordnance Station, Louisville, KY. We request you designate a representative to these committees at this time. This representative should be able to review our reports in a timely manner, attend committee meetings at or near the installations, and fulfill SARA requirements for consultation and coordination.

Please have your designated representative notify us by November 30, 1987 so we may initiate the review process. Our point of contact is Cherryl Barnett, (804) 445-1814.

Sincerely

J. R. BAILEY, P.E.  
Head, Environmental Quality Branch  
Utilities, Energy and Environmental  
Division  
By direction of the Commander
